

Major Construction Activities are Complete

Paving of Talmage Ave was completed last week. Several minor items of work still remain such as pavement sawing and striping on Talmage Ave and sodding along the entire project. This work may result in minor traffic inconveniences but there will be no street closures. Please watch for on-going work.

On behalf of the City of Minneapolis we would like to express our thanks for your understanding and cooperation during the reconstruction activities and we hope that the final results meet your expectations.

This update is part of a series of communications to inform stakeholders about the 33rd & Talmage paving project.
