

## **Penn Avenue S. Phase I Reconstruction Update March 28, 2012**

Considering input gathered at public meetings, Public Works has created Layout 3 (see the link above to view the graphic). Layout 3 is similar to Layout 1 with a few significant revisions.

- Bike lanes are no longer proposed for Penn Ave. Public Works is reviewing adjacent streets for bicycle improvements. Shawn Murphy can be reached at [Shaun.Murphy@minneapolismn.gov](mailto:Shaun.Murphy@minneapolismn.gov) with any questions about the bike route review.
- Parking is proposed on the west side of Penn , south of 58th St except where the width is needed for the left turn lane and left turn lane tapers.
- Parking lane width is increased to 10 feet at a few select locations where traffic volumes are over 10,000 ADT or where parking demand is very high and space for trees and grass is not sacrificed.

**Note:** The Minneapolis Park Board and Public Works are coordinating to replace ash trees as part of the project.

**Note:** MnDot is planning to re-deck the bridge over MN-62 in 2013.
