

Penn Avenue S. Phase I Reconstruction Update June 10:

Meyer is finishing up the construction of storm sewers between 58th and 54th Streets

Meyer will be prepping for paving next week between W 58th and about 100 feet north of W 56th St.

CenterPoint Energy has installed the new gas main between 59th and 53th Streets. The line is now in service and all individual service connections have been completed.

City of Minneapolis continues to place concrete between W 60th and W 58th Streets.

The City of Minneapolis will be placing the second lift of asphalt between W 60th to just north of W 58th St. June 14.

The City's Traffic Department has placed conduit for signals and lighting between W 60th and W 58th Streets and will be working on installing conduit at W 56th St this weekend.

The City removed the signal at W 60th St. to prepare for the next stage of removals on the south end of the project.

UPCOMING EVENTS

Starting the week of June 17:

Meyer will begin removals on Monday June 17th on Penn Ave from the north side of the Mn 62 frontage road (also called W 62nd) to just north of W 60th St. **This transition will involve closing the intersection of W 60th St at Penn.** I anticipate that this intersection will be closed for 2-3 weeks while underground utility work is completed and that the roadway will be closed for approximately 4 weeks, and then closed for 1-3 day intervals for paving and concrete work.

Meyer will begin the removals at the intersection of W 60th St. and Penn Ave. and work south and will be starting on the east side of Penn Ave.

Michel's will be removing abandoned gas main between Mn 62 and W 60th St.

On Thursday, June 20, the City of Minneapolis will be paving from just north of the W 58th St intersection to approximately 100 feet north of the W 56th St intersection. This work will require a closure of Penn Avenue and the intersections of W 57th and W 56th while the paving is completed.

On Friday, June 21, the City of Minneapolis will start placing concrete curb and gutter from just north of the W 58th St intersection to approximately 100 feet north of the 56th St intersection. This work will require a

closure of Penn Avenue and the intersections of W 57th and W 56th while the curb is place. On Saturday, June 22, concrete crews are tentatively scheduled to place driveways and bus pads in the area north of the W 58th St intersection to approximately 100 feet north of the 56th St intersection. Once your driveway is poured you will need to stay off of it for about a week so it can cure properly.

OTHER CONSIDERATIONS

Sprinkler Systems, Boulevard Gardens and Pavers in Public Right of Way

Residents should remove any irrigation systems and salvage special plantings on City of Minneapolis right of way.

Asphalt Paving

Residents on Penn living between W 58th and W 56th Street should park in alleys or on cross streets the week of June 17 and week of June 24. Persons in need of special accommodation should contact Chris Trembath Engineering Technician at 612-919-1196.

Concrete Cure Time

Following the asphalt placement; new concrete curb and gutter, driveway aprons, bus pads, and sidewalk will be placed. Once these concrete structures are poured they will be blocked off to allow the fresh pavement to cure. If the approach to your driveway is on Penn Ave., we will notify you in advance of placing your new driveway approach and ask you to park at another location for eight days. Once your driveway is ready to use, a the caution tape will be removed and a gravel ramp will be placed in front of it.

Trash and Recycling

No changes will be made to the pick-up locations of garbage and recycling collected by the **City of Minneapolis**. **Businesses that have private vendors collect their trash should advise their vendor of the upcoming construction.**

Traffic

Extra speed enforcement has been requested for the areas around the project.

If you have any questions or concerns feel free to contact me.
