

July 11, 2013

Good Afternoon,

**Thomas and Sons** should be wrapping up the storm sewer work between 38<sup>th</sup> and 40<sup>th</sup> soon. They are also working on the subgrade. Next week they should be able to start with the gravel base. They will also be working on the intersection of 40<sup>th</sup> St and Nicollet Ave. With the number of utilities in the intersection and the work required, the intersection will need to be closed for 2 weeks starting Monday, July 15<sup>th</sup>. Starting the week of the 22<sup>nd</sup>, they will begin with the asphalt and curb and gutter work between 38<sup>th</sup> and 40<sup>th</sup> St. Please see the attached for more information regarding the closure and information of the intersection detour.

**Minneapolis Traffic** will be working to install light foundations between 36<sup>th</sup> and 38<sup>th</sup>. We the light foundations are in, Thomas and Sons add the black dirt in the boulevard to get that ready for sod.

**Minneapolis Water** has connected the temporary water hook-ups. Cleaning and lining of the water main is anticipated to occur in late next week or early the following week. More information will be shared as it's available.

Businesses are open during construction and local access to business and residential driveways will be maintained. However, it will change based on the type and location of the work being done.

We will share any updates as they are available.

## PROJECT CONTACTS

**On-site project inspector** Bob Schmidt 651-308-3805- Call Bob if you have immediate issues on the project

**On-site project inspector** Bob Anthony 612-210-2269- Call Bob if you have immediate issues on the project

**Project Engineer** Beverly Warmka 612-673-3762- Call Bev if you have general questions regarding the project

If you have any questions regarding the project, feel free to contact me, Beverly Warmka, Project Engineer at [beverly.warmka@minneapolismn.gov](mailto:beverly.warmka@minneapolismn.gov) or 612-673-3762

Additional information regarding the project can be found on the project website at <http://www.ci.minneapolis.mn.us/cip/all/WCMS1P-102134>
