Subject: 12th Street bikeway and sidewalk expansion

### **12th Street bikeway and sidewalk expansion**

Overall, the Pedestrian Advisory Committee supports the proposed 12th Street bikeway and sidewalk expansion. The PAC appreciates the shorter crossing distances. The PAC supports tactile and visual delineation between bicyclist and pedestrian areas. We urge attention to conflict zones between pedestrians, bicycles and motor vehicles. In particular, we urge tighter curb radii to prevent free right turns at NE-bound 2nd Avenue South and at SE-bound 12th Street South, as well as greatly reducing the width of curb cuts. We look forward to the inclusion of street furniture and lighting to give more pedestrian-oriented cues to all users.
