Subject: 18th Avenue NE Project

18th Avenue NE Project

The Pedestrian Advisory Committee supports the proposed layout of the 18th Ave NE corridor with further recommendations. We particularly appreciate the removal of the free right turn at Johnson Street and 18th Ave, closing the sidewalk and trail gaps, squaring the intersection at Stinson Boulevard, and reducing crossing distances throughout the corridor. We recommend a bumpout at the northeast corner of 18th Ave and Johnson Street and 10-foot lane widths throughout the corridor.
