Storage Tank Requirements for Minneapolis

Environmental Service Requirements:

Aboveground storage tank requirements:

- o Submit an application, along with payment and a site map showing location of all tanks, any known contaminated areas, buildings, and major streets.
- o Obtain permit. Beginning work prior to receiving approval is a violation of City ordinance. If you have not received the permit 48 hours prior to beginning work please call Tom Frame (612) 685-8501 to verify its issuance or receive verbal approval.
- o Notify Environmental Services 48 hours prior to beginning work of approximate time of removal, abandonment, or installation.
- o When removing a tank all fill, vent, and product lines must be removed. If not accessible they must be abandoned and the ends sealed.

Underground storage tank requirements:

- o Submit an application, with site map (as specified above), and.
 - 30 days notice must be given for tank installation.
 - 10 day notice for removal or abandonment.
- o Obtain permit. Beginning work prior to receiving approval is a violation of City ordinance. If you have not received the permit 48 hours prior to beginning work please call Tom Frame (612) 685-8501 to verify its issuance or received verbal approval.
- o Notify Environmental Services 48 hours prior to beginning work of approximate time of removal, abandonment, or installation.
- o Remove all vent, fill, and product lines at time of tank removal or abandonment. If not accessible they be abandoned and the ends sealed.
- o Submit sampling report within 45 days of tank removal or abandonment.
 - Sampling requirements are the same as state sampling requirement, except that any fuel oil tank greater than 200 gallons also requires one soil sample.
 - Extensions may be granted for submitting a sampling report, upon request.

Minneapolis Fire Department Requirements:

Permit must be obtained from the Minneapolis Fire Inspection Services for all tank work. For further information contact Minneapolis Fire Inspection Services at 612-673-3288 or on-line at www.minneapolismn.gov/regservices/fire/regservices_fis

Heating, Mechanical and Plumbing Permit and Inspection Requirements:

Installation of stationary combustion engines, related accessories for life safety emergency power, and installation of combination tanks for heating and other emergency generators:

Application must be submitted to Minneapolis Development Review for permit issuance. Inspection must be scheduled for tank tightness and line tightness testing with the assigned area inspector. Inspection must occur prior to burial for underground tanks and piping. If an engine is fueled by either natural or LP gas, a process gas piping permit is required and issued by the Plumbing Section. For further information contact Minneapolis Information & Services at 311 or outside Minneapolis at (612) 673-3000.
