Development Services Customer Service Center

To ensure the safety, health, and livability of our community, the City of Minneapolis requires permits or licenses for development, constructions, remodeling, and renovation projects. Development Services Customer Service Center staff are committed to helping contractors, developers, business owners, homeowners, and landlords navigate the process effectively and efficiently to obtain all necessary reviews, licenses, permits, and inspections needed to complete their projects.

Regular walk-in business hours are Mon thru Wed and Fri 8:00 a.m. - 4:00 p.m. and Thurs 9:00 a.m. to 4:00 p.m. Customers are encouraged to call 311 (Minneapolis residents) or 612-673-3000 (outside Minneapolis) to set up a Development Review case file or go online to minneapolismn.gov/mdr to review sample plans and purchase permits online.

**While supplies last.*
