"CLEARANCE OVER PUBLIC ALLEY"

Your property has been cited in response to a Neighborhood Sweep conducted by this department

The growth over the public alley needs to be corrected to maintain proper clearance required by Minneapolis Code of Ordinances.

"An overhead clearance *from the ground to a height of 14 feet is required*"

These are examples of two "before" situations:

Below are the same photos with dotted lines which represent where to cut vegetation to meet code standards.

*Vegetation needs only to be cut at alley edge

*vegetation to be cut at 14 foot mark as well as alley edge

(drawings not to scale)
