"CLEARANCE OVER PUBLIC WALK"

Your property has been cited in response to a Neighborhood Sweep conducted by this department

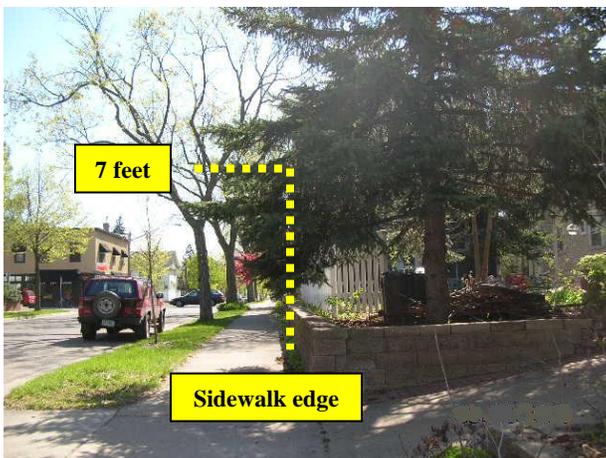

The growth over the public walk needs to be corrected to maintain proper clearance required by Minneapolis Code of Ordinances.

"An overhead clearance *from the ground to a height of 7 feet is required*"

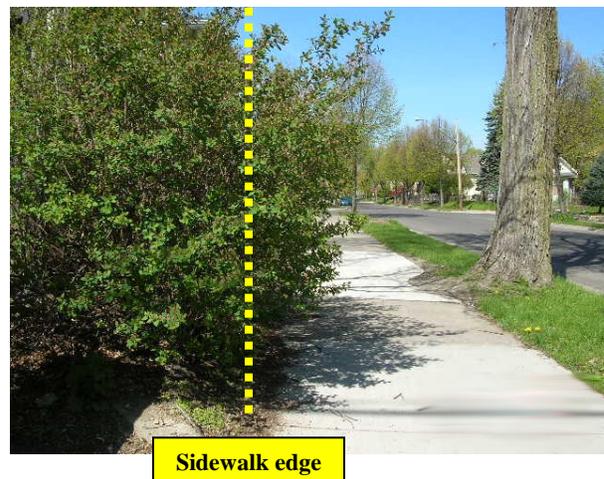

These are examples of two "before" situations:

Below are the same photos with dotted lines which represent where to cut vegetation to meet code standards.

*vegetation to be cut at 7 foot mark as well as sidewalk edge

*vegetation needs only to be cut at sidewalk edge

(drawings not to scale)
