

# Avoid new credit card fees on your **utility bill**

**Starting June 1**, credit card payments will have a 2.35% processing fee. For example, a \$100 utility bill would have a \$2.35 credit card fee.

In the past, the City covered this cost. Like many other cities and utilities, we're now passing that fee on to customers. The City does not keep the fee.

## Easy ways to **avoid the fee**

You can avoid credit card fees by using other payment options. To avoid the fee,  
**switch before June 1.**

## **No-fee** payment options

- Checks: electronic/online, mailed or in person
- Automatic checking or savings account payments
- Your bank's bill pay
- Cash in person at the Public Service Building or retail partners
