Prior to issuance of a Parade or Race Permit, notice must be given to all occupants of property abutting the location of the parade or race route. Written approval of the parade or race must be obtained from all properties with unmitigated vehicle access along the parade or race route. Where a property is occupied by multiple tenants or owners, a homeowners' association, tenant's association, building management association, or the like may grant a single approval on behalf of all occupants of the property.
