C. Northside Greenway Public Art Project

Public art goals

The art should:

- Be in relationship with each unique location
- Provide an invitation to slow down
- Encourage interaction with the art and with one another
- Reflect the communities along the route and be welcoming to all

Public art locations

There are six locations for public art along the Northside Greenway. All sites are grassy areas. Concrete pads or other material could be installed to support the art. This will be coordinated with the artist through the design process.

Artists may apply for and may be selected for multiple locations.

The following four locations are open green spaces with a variety of plantings:

Humboldt Ave N at 41st Ave N - \$110,000

An offset intersection between two residential neighborhood streets. The project will add a diverter to prevent cars driving through. It will add green space and a trail in the middle of the intersection.
