## **GENERAL OVERVIEW**

### **Executive Summary**

The City of Minneapolis has been allocated \$271 million by U.S. Treasury through the Coronavirus State and Local Fiscal Recovery Fund (SLFRF) section of the American Rescue Plan Act (ARPA). At the time of the award in early 2021, tension existed between getting these funds into the community quickly to arrest the community impacts realized through the coronavirus pandemic economic and health environment while conducting robust engagement with residents and other jurisdictions. To balance those two interests, Minneapolis engaged in two phases of decision-making on ARPA funds. On July 2, 2021, the City Council adopted a series of proposals, referred to as phase one, that focus on solving the following problems in response to the COVID-19 pandemic:

- Housing instability,
- Business closures and financial stress in small businesses,
- Business, non-profit, and public organization's capacity and preparation for the lifting of social distancing measures, and
- Responding to the nationwide increase in violent crime.

The phase one decision-making process began with a Mayoral recommendation in early June 2021 that utilized the work done by City subject matter experts and included input from City Council and Department Leaders. Proposals then went to City Council for public comment through two public hearings, amendments, and adoption. A total of just under \$102 million was approved in phase one.

At the same time, the Mayor proposed allocating nearly \$119 million for revenue replacement over three years to offset a portion of lost revenues due to the pandemic. After phase one was adopted, the City turned to the annual budget process for 2022 and adoption of ARPA SLFRF phase two appropriations.

In October 2021, the City collected public feedback through a survey on priorities for phase two spending. City staff also worked with partners in neighboring jurisdictions to coordinate investments. After phase one but prior to phase two, several time sensitive appropriations were made. These appropriations addressed housing and homelessness, public safety, and city employee COVID testing. The Mayor made phase two spending recommendations for the remaining \$43 million in unallocated ARPA funds in April 2022. There were public presentations to the City Council as well as an additional public hearing held in May 2022. The City Council adopted phase two recommendations on May 26, 2022. In addition to the appropriations from unbudgeted funds, money from prior unused appropriations were reallocated, including an increase to the 2022 revenue replacement allocation.

Each funded proposal addresses a specific problem caused or exacerbated by the pandemic, proposes specific actions, considers equitable fund distribution, and lists expected results. City staff will evaluate outcomes of each proposal as funds are distributed; specific funding has been allocated to assist with this evaluation effort. ARPA funds provide an opportunity to support disproportionately impacted communities affected by public health and negative economic

conditions and promote equitable outcomes in alignment with the existing adopted Strategic and Racial Equity Action Plan goals of the City of Minneapolis.

### **Uses of Funds**

The City of Minneapolis used American Rescue Plan Act dollars, allocated through the Coronavirus State and Local Fiscal Recovery Funds (SLFRF), in a variety of ways to support a strong and equitable recovery from the COVID-19 pandemic and economic downturn. Departments across the City held discussions with community members, City leadership, and other key stakeholders to determine how best to respond to the recovery needs facing Minneapolis. From those discussions, departments submitted programming proposals to support the focus of the first phase of recovery efforts. These proposals were grouped into five major categories of spending: Housing and Homelessness, Economic Rebuilding, Public Safety, Climate and Public Health, and City Capacity and Performance.

There was a particular focus on providing support to underserved communities. These proposals targeted the most vulnerable residents of our City with programming for homeownership, homelessness, support for small businesses and art organizations, job training for low-income residents, trauma response services for residents feeling the impacts of increased violence resulting from the pandemic, and access to food, mental health and other public services. In targeting those communities and residents most greatly impacted by the COVID-19 pandemic, illustrated through focus on the city's qualified census tracts, areas of concentrated poverty, and its cultural community districts, the City most efficiently utilized available funding to respond to the greatest needs. In addition to targeting the community needs of recovery response, the City invested in its internal support operations with increased staffing and department support for program management. The City also provided economic relief to its own employees impacted by furloughed time off caused by pandemic-related budget reductions in 2020.

Since the initial budget allocations of SLFRF funding, the City has made occasional budgeting reallocations based on new recognized pandemic recovery response needs, project savings or project reprioritization. These reallocations were subject to City Council legislative review and made public.

Following is a breakdown of how the City is addressing the six SLFRF expenditure categories specifically:

#### **Public Health (EC 1)**

The City pursued several project initiatives within the public health expenditure category. The projects include COVID-19 testing for City employees as well as multiple violence intervention and public safety strategies to protect our most at-risk populations. Trauma response teams, community partners, and already established social services programs used expanded funding to target responses to the hardest hit communities.

#### **Negative Economic Impacts (EC 2)**

Economic recovery was critical to the City's pandemic response and longer term community resilience. Strategies were employed to address the economic impacts realized by the business, real estate, non-profit, and resident communities caused by the pandemic. The City invested in long term housing security and supply, services for unhoused people, community food needs,

funding to non-profit partners, and created a funding pool for businesses focused on economic recovery and green career training. Direct funding to non-profits allowed established community partners to continue to deliver impactful resources to those most in need. Job training and low or no-interest loan programs supported job recovery where it's most effective for long-term economic growth.

### **Public Health-Negative Economic Impact: Public Sector Capacity (EC 3)**

In this category, the City invested in support for program evaluation and implementation planning for projects funded under the American Rescue Plan.

### **Premium Pay (EC 4)**

The City did not establish any premium pay programs.

### **Water, sewer, and broadband infrastructure (EC 5)**

The City did not establish any water, sewer, or broadband infrastructure programs.

### **Revenue Replacement (EC 6)**

Revenue replacement was used to supplement government operations as well as programs targeted primarily to City staff. The City used funds to pay staff for unpaid leave taken in 2020 as a reaction to revenue losses and budget cuts during the initial economic downturn. In addition, the City expanded access to mental health services for employees. As a result of the City's continuing response to the needs expressed during the 2020 Civil Unrest it is supported program evaluation for the Truth and Reconciliation Commission. The City also made investments in employee recruitment and retention with an emphasis on public safety employees and other hard to fill positions. The balance of revenue replacement was used for general government services. These general government services are for benefits accruing to the public but focused on programming benefitting those most impacted by the pandemic or its economic effects. Programming generally included, but was not limited to, maintenance or pay-go funded building of infrastructure; health services; environmental remediation; school or educational services; public social services programming and provision of public safety services. ### **Other Federal Funding Sources**

In addition to the SLFRF the City is received Federal funding through the Emergency Rental Assistance (ERA) program. The ERA funds are part of the Consolidated Appropriations Act, 2021 enacted on December 27, 2020. The U.S. Treasury is responsible for administering the program. The City received its allocation of \$12.9 million in January 2021. The American Rescue Plan Act of 2021 enacted on March 11, 2021, also managed through the U.S. Treasury provided the City with an additional \$4.1 million of ERA phase two funding. Emergency Rental Assistance funds were used to help 3,500 eligible households through existing or newly created rental assistance programs. This assistance further supported the City's recovery goals of equitable housing opportunities for its residents.

## Community Engagement

In the initial brainstorming of projects to address the goals of the American Rescue Plan Act, subject matter experts were asked to include any prior outreach that had been done and include any information and/or evidence about community attitudes on the topic. Departments consulted with their existing stakeholder groups to formulate the proposals that were considered in the first round of Spring 2021 decision-making.

On June 4, 2021, the Mayor released his recommendations for phase one of SLFRF decision-making. These proposals were detailed on the City's [website](#) as well as the Legislative Information Management System (LIMS). As City Council considered and amended the Mayor's recommendations, two public hearings were held, and input was solicited from the public in written form as well. Links to the public feedback received during this process can be found on <https://lms.minneapolismn.gov/file/2021-00651>.

In October 2021, the City solicited further feedback through a public survey. Survey results were publicly available and were used in decision-making. On April 26, 2022, the Mayor released his recommendations for phase two of SLFRF decision-making. These proposals were detailed on the City's [website](#) as well as the public Legislative Information Management System (LIMS). As City Council considered and amended the Mayor's recommendations, a public hearing was held, and input was solicited from the public in written form as well.

## Labor Practices

Minneapolis did not pursue any infrastructure projects with its SLFRF funds. However, the City has instituted several labor friendly ordinances reflected in city contracting practices and as an experienced recipient of federal transportation, housing, and community development funds, developed robust monitoring and compliance tools in its Civil Rights Department through its Labor Standards Enforcement and Contract Compliance divisions.

Through ordinance the City of Minneapolis enforces federal (Davis-Bacon) prevailing wage rates on its construction projects over \$50,000. The City requires payment to workers at least bi-weekly (unless the project is federally funded).

Additionally, City ordinances include enforcement provisions by the Labor Standards Enforcement Division related to labor friendly measures of Sick and Safe Time, Minimum Wage, and Wage Theft ordinances. In its phase two revenue replacement budget the City is funded

increased compliance efforts around enforcement of labor standards and labor trafficking prevention.

The Minimum Wage Ordinance sets a new hourly minimum wage standard for work performed in Minneapolis. The Sick and Safe Time Ordinance creates access to time off work for employees across the city. The Wage Theft Ordinance works with the state's wage theft law to protect employers and employees and to ensure people receive all wages and benefits to which they're entitled.

The City funded a substantial housing project undertaken by the Minneapolis Public Housing Authority. The Authority used Section 3 labor opportunities and Davis-Bacon prevailing wage requirements on this project.

### **Use of Evidence**

The City did an inventory of all SLFRF projects to assess whether each project had an existing evidence-base (i.e., conducted literature scans to determine if evidence exists, through prior research or evaluation, which illustrates that a particular project or program model has successful outcomes for a population). For projects that did not have an existing evidence base, projects were informed that they were to create an evaluation plan. The City contracted with a Minnesota-based nonprofit research and evaluation group to help these projects on a variety of technical assistance tasks, such as designing data collection tools to assist in measuring project performance.

### **Performance Report**

Performance management strategies were subject to each of the City's SLFRF projects. Each project is tracking specific performance indicators as required for their expenditure category by the final rule (See Project Inventory section below). Additional metrics and goals were tracked depending on the nature of the project and include but were not limited to measuring number of people served, number of lead-based paint interventions, number of affordable housing units built, and number of underserved candidates hired in trainee programs. Performance was tracked in quarterly reporting to U.S. Treasury.

### **TABLE OF EXPENSES AND OBLIGATIONS**

The following table illustrates how the final accounting of SLFRF funds were allocated among eligible expenditure categories through the final obligation date of 12/31/2024. The City was able to expend all of its SLFRF funding allocation through this date.

**Table of Expenses and Obligations by Expenditure Category**

Category		Budget (\$)	Cumulative obligations through June 2024 (\$)	Cumulative obligations through December 2024 (\$)	Cumulative expenditures through June 2024 date (\$)	Cumulative expenditures through December 2024 date (\$)	Amount spent since 2024 Recovery Plan (\$)
1	Expenditure Category: Public Health	15,748,981	14,552,549	15,748,981	14,302,640	15,748,981	1,446,341
1.2	COVID-19 Testing	538,949	538,949	538,949	538,949	538,949	0
1.11	Community Violence Interventions	15,210,032	14,013,600	15,210,032	13,763,691	15,210,032	1,446,341
2	Expenditure Category: Negative Economic Impacts	26,317,332	26,185,423	26,317,332	23,105,326	26,317,332	3,212,005

## PROJECT INVENTORY

1-Public Health								
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
1.11-Community Violence Interventions	Police Department Staff Civilianization	\$12,804	\$12,804	Additional civilian support for administrative purposes allows officers to concentrate on law enforcement in all Bureaus and would be a more efficient use of resources.	N/A	Completed	General Public	N/A
1.11-Community Violence Interventions	Youth and Community Safety Fund	\$2,188,474	\$2,188,474	Minneapolis Health Department will administer an RFP process to distribute money to community-based partners to support community health and safety programming and youth opportunities. Funding is available to community-based partners providing services under the broad headings of Community Safety, Youth Opportunity, Community Health, and Opioids.	Number of workers enrolled in sectoral job training programs; Number of workers completing sectoral job training programs	Completed	Disproportionately impacted Low income households and populations	John Jay College of Criminal Justice/CUNY
1.11-Community Violence Interventions	Violent Crime Hot Spot Task Force	\$250,000	\$250,000	Staff overtime to police officers focused on addressing crime within specific hot spot areas.	N/A	Completed	Disproportionately impacted Low income households and populations	N/A
1.11-Community Violence Interventions	Public Safety Workforce Training Community Service Officers	\$2,194,285	\$2,194,285	Additional hiring of Community Service Officers to perform non-law enforcement work in the Minneapolis Police Department for up to three years while enrolled as a student in an approved two-year law enforcement program and working toward completion of MN Peace Officers Standards and Training POST licensing requirements.	Number of workers enrolled in sectoral job training programs; Number of workers completing sectoral job training programs	Completed	General Public	N/A
1.11-Community Violence Interventions	Stabilization Services for High Risk Individuals	\$648,669	\$648,669	The OVP Stabilization Initiative will provide significant pathways towards reductions in clients likelihood for violence perpetration and victimizations. Housing access, food full time employment and educational services are in high demand and current budgets cannot meet the existing need. This is an expansion of an existing activity GVI Next Step and Minneapolis Interrupters providing a comprehensive approach to preventing, intervening in and supporting healing from violence.	Number of workers enrolled in sectoral job training programs; Number of workers completing sectoral job training programs	Completed	Disproportionately impacted Low income households and populations	Hennepin Healthcare
1.11-Community Violence Interventions	Portable and Fixed Camera Expansion	\$1,480,000	\$1,480,000	With the significant reduction in sworn FTEs combined with high recent crime trends the MPD is seeking alternative preventative policing measures or measures that could assist in investigations of crime. One alternative is the use of portable or fixed cameras which are widely requested by communities and neighborhood organizations to both deter crime and help solve crime. MPD proposes expanding the fleet of mobile fixed cameras for use in areas of high crime or hotspots to both deter crime and to aid in investigations.	N/A	Completed	General Public	N/A

1-Public Health								
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
1.11-Community Violence Interventions	Minneapolis Strategic Outreach Initiative	\$2,927,520	\$2,927,520	Outreach Workers will provide peacemaking, peacekeeping, violence interruption and community engagement through street- and community-based outreach. The initiative is intended to reduce risk factors for violence and promote safe healthy and thriving communities.	Number of workers enrolled in sectoral job training programs; Number of workers completing sectoral job training programs	Completed	Low or moderate income households or populations	We Push for Peace; Metro Youth Diversion Center; Restoration Inc; Central Area Neighborhood; Corcoran Neighborhood Organization; Urban Youth Conservation
1.11-Community Violence Interventions	Group Violence Intervention - Overtime	\$16,148	\$16,148	Minneapolis Police Department currently has four sworn staff who possess training to help with the Group Violence Intervention GVI program. MPD will train additional sworn staff in this technique to work with community corrections and the Office of Violence Prevention to conduct more custom notifications.	N/A	Completed	General Public	N/A
1.11-Community Violence Interventions	Early Intervention for Young People	\$45,195	\$45,195	Early intervention services intended to reduce risk factors for violence for young people and their families who may be at risk of involvement with violence but who are not already deeply system involved. Services will be informed by positive youth development and will draw from case management and mentorship practices.	Number of workers enrolled in sectoral job training programs	Completed	Low or moderate income households or populations	Tubman Services

1-Public Health								
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
1.11-Community Violence Interventions	MPRB Youth Programming	\$3,267,400	\$3,267,400	This funding will provide high-quality youth development programs that are a key protective factor against violence. It will provide the addition of 22 full-time employees that will provide consistent dedicated engagement of youth in safe environments and expose them to experiences that can enhance and enrich their lives. The funding will be directed to youth programming creation spaces, youth employment, nature-based programming and intergenerational programming.	Number of People participating in summer youth employment programs; Number of workers enrolled in sectoral job training programs	Completed	Low or moderate income households or populations	Minneapolis Park and Recreation Board
1.11-Community Violence Interventions	Community Trauma Response Protocols	\$1,559,864	\$1,559,864	The General Trauma Response Protocols will provide support to community members who are victims or witnesses of violence. Stabilization in community supportive direct services such as mental health and wellness, food security, structure repairs i.e shattered glass bullet holes etc., and memorial and funeral support are necessary to better manage trauma services and to build trust between city government and communities most impacted by violence.	Number of Households served	Completed	Low or moderate income households or populations	Change Starts with Community
1.11-Community Violence Interventions	End Human Trafficking	\$619,672	\$619,672	This proposal will support the implementation of the Citys Blueprint to end human trafficking and sexual exploitation in Minneapolis. Funding will be used to contract with a community-based organization who has demonstrated expertise in reducing human trafficking and commercial sexual exploitation with priority to serving the American Indian, African American, Immigrant and Transgender communities.	Number of Households served = 2,880	Completed	Disproportionately impacted Low income households and populations Qualified Census Tract focused	The Family Partnership
1.2-COVID-19 Testing	Employee COVID Testing	\$538,949	\$538,949	Public employee testing services to minimize COVID-19 in public sector workspaces.	N/A	Completed	General Public	Hennepin Healthcare

**2-Negative Economic Impacts**

<b>Project Expenditure Category</b>	<b>Project Name</b>	<b>Adopted Budget</b>	<b>Expenditures through December 2024</b>	<b>Project Description</b>	<b>US Treasury Key Performance Indicator/Measure</b>	<b>Status</b>	<b>Targeted Populations</b>	<b>Key Partners</b>
2.15-Long-Term Housing Security Affordable Housing	MPHA Scattered Site Construction	\$4,000,000	\$4,000,000	Gap financing to support Minneapolis Public Housing Authority in assembling 16 scattered sites and replace current structures with modularly constructed, higher density four-unit and six-unit buildings consisting of 2- and 3-bedroom unit properties for a total of 84 deeply affordable units.	Number of Affordable Housing Units Preserved or Developed = 84 public housing units	Completed	Low-income households or populations communities	Minneapolis Public Housing Authority
2.16-Long-Term Housing Security Services for Unhoused persons	Homelessness Encampment Response	\$1,475,137	\$1,475,137	Support for the provision of and servicing of hygiene stations, porta potty, handwashing, syringe litter cleanup and equipment and supplies for encampment site locations. Fund community outreach partners to provide health related outreach services to homeless individuals with a particular focus on encampments.	Number of Persons Served	Completed	Disproportionately impacted Low income households and populations	RS Eden; Southside Harm Reduction Services; Touchstone Mental Health
2.16-Long-Term Housing Security Services for Unhoused persons	Womens Shelter	\$1,305,747	\$1,305,747	Funds will be used to acquire a property for a new 30-bed emergency homeless shelter for people who identify as women.	Number of Affordable Housing Units Preserved or Developed = 30 bed shelter developed	Completed	Disproportionately impacted Low income households and populations	Hennepin County

## 2-Negative Economic Impacts

Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
2.1-Household Assistance Food Programs	Community Food Needs	\$500,000	\$500,000	This program will work with partners to implement a healthy food access incentives, coupons program for residents at local farmers markets and food retailers in areas with food access gap. Programming will build capacity for food shelves, food distribution pop-ups, farmers markets, and small food retailers who accept SNAP-EBT. It will support equipment needs and minor capital improvements in certain sites.	Number of Persons Served = 166,814 Evidence Based Intervention	Completed	Households that experienced increased food or housing insecurity	Shiloh Temple; NorthPoint Health; Asian Media Access; Isuroon
2.20-Social Determinants of Health Lead Remediation	Eliminate Childhood Lead Poisoning	\$4,996,912	\$4,996,912	Work to address lead paint remediation in housing with lead contamination targeting Minneapolis green zone neighborhoods as well as complete low- and moderate income housing stock weatherization and healthy home repairs.	Number of Households Served=350 Evidence Based Intervention	Completed	Low or moderate income households or populations	Riverview Windows

## 2-Negative Economic Impacts

Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
2.26-Addressing Educational Disparities Mental Health Services	School Based Clinic Expansion	\$717,804	\$717,804	Through the School Based Mental Health program two additional SBC Mental Health Professionals will provide evidence-based mental health treatment to 120 teens per year to promote behaviors that reduce the risk of ongoing serious mental illness. Adolescent clients will receive from 2 to 30 visits resulting in an addition of 350 to 450 visits annually.	Number of students participating in evidence-based tutoring programs =N/A Evidence Based Intervention	Completed	Disproportionately impacted Low income households and populations	Minneapolis Schools
2.29-Loans or Grants to Mitigate Financial Hardship	Green Cost Share Economic Recovery and Green Careers	\$3,147,291	\$3,147,291	The Green Cost Share Program is a program designed to aid in the economic recovery of Minneapolis from the pandemic by focusing on energy efficiency and renewable energy in BIPOC communities and low income housing.	Number of Businesses Served = 252	Completed	Small businesses that experienced a negative economic impact of the pandemic	N/A
2.2-Household Assistance Rent Mortgage and Utility Aid	Low-Income Home RepairsMaintenance	\$114,137	\$114,137	This program is available to communities with the most significant home repair needs and the highest concentration of households below 80 percent AMI. City funds will be available as 0% interest loans that are deferred and payable upon property sale.	Number of Households Served = 9	Completed	Disproportionately impacted households or populations residing in Qualified Census Tracts	N/A
2.2-Household Assistance Rent Mortgage and Utility Aid	Expand Homeownership to Low-Income Households	\$988,274	\$988,274	Expansion of city down payment and closing cost assistance programming to additional households at 60% AMI to achieve homeownership through the Minneapolis Homes Homeownership Opportunity program.	Number of Households Served = 64 Evidence Based Intervention	Completed	Low-income households or populations communities	Community Neighborhood Housing Services; BuildWealth MN

2-Negative Economic Impacts								
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
2.30-Technical Assistance Counseling or Business Planning	Small Business Acceleration - B-TAP and D-TAP Service Expansion	\$1,383,100	\$1,383,100	This program provides increased appropriations to expand technical assistance through service contracts with participating organizations and providing new services with additional specialized service providers to stabilize, sustain and expand small business development in the city.	Number of Small Businesses Served = 1,074	Completed	Small businesses that experienced a negative economic impact of the pandemic	N/A
2.34-Assistance to Impacted Nonprofit Organizations Impacted or Disproportionately Impacted	Sabathani Stabilization Grant	\$752,000	\$752,000	The grant will fund improvements to mechanical systems and other costs associated with repositioning the Sabathani Community Center to address current and future community needs. ## 2-Negative Economic Impacts

Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	US Treasury Key Performance Indicator/Measure	Status	Targeted Populations	Key Partners
2.35-Aid to Tourism Travel or Hospitality	Open Streets	\$57,230	\$57,230	Open Streets Minneapolis is an effort to make streets places that put people first through family-friendly events on commercial corridors in the city. There has been limited interest in additional sponsorship dollars for Open Streets events. The City currently contributes to Open Streets events with in-kind services estimated at \$180,000 but additional funding is needed to fully activate each event.	Qualified Census Tracts Served- 5 events supported: Lyndale Ave, Franklin Ave, Minnehaha Ave, Lake St, W Broadway Ave	Completed	Travel, tourism, or hospitality sector	Our Streets Minneapolis
2.36-Aid to Other Impacted Industries	Arts and Culture Workforce Support	\$500,000	\$500,000	This proposal provides funding for small for and nonprofit arts and cultural enterprises so they can hire, contract and train artists and creatives to assist with their pivots and re openings. This initiative enables creative enterprises to message their plans for present and future programming and re-engage audiences and donors which dropped off during the pandemic. The proposal creates jobs for creatives with a focus on those that are the most impacted by COVID closures.	Number of Small Businesses Served = 18	Completed	Industry outside of travel, tourism, or hospitality that experienced a negative economic impact	Springboard for the Arts; Juxtaposition Arts
2.37-Economic Impact Assistance Other	ARPA Traffic Calming	\$500,000	\$500,000	Funding for strategic traffic calming installations such as temporary or permanent speed humps, temporary alley speed humps, and temporary pinch points in Cultural Districts and ACP50 areas of the city.	Qualified Census Tracts Served = East Phillips, Hawthorne Neighborhoods	Completed	Low-income households or populations communities	N/A

**6-Revenue Replacement**

<b>Project Expenditure Category</b>	<b>Project Name</b>	<b>Adopted Budget</b>	<b>Expenditures through December 2024</b>	<b>Project Description</b>	<b>Status</b>	<b>Targeted Populations</b>	<b>Key Partners</b>
6.1-Provision of Government Services	NOAH Preservation Fund	\$1,350,000	\$1,350,000	This is expansion funding for two existing programs. NOAH properties refer to unsubsidized multifamily Class C rental housing projects that have at least 20 of the units with rents affordable to households with incomes at or below 60% of the Area Median Income. Minneapolis has approximately 30,000 Class C units in buildings of 4 or more units and fewer than 15,000 of these units have rents affordable to households with incomes at or below 60% AMI. Preservation of NOAH properties is a critical issue given the growing overall shortage of affordable housing. Six properties were treated in this program.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Minneapolis HomesMissing Middle	\$6,760,657	\$6,760,657	Create perpetually affordable housing units in a currently vacant and boarded missing middle development to serve households below 60 area median income. Missing middle development is defined as a two to 20-unit development. 33 properties treated.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Heritage Park Emergency Stabilization Support	\$867,092	\$867,092	Project will cover the cost of a series of immediately needed physical safety improvements at the 900 unit Heritage Park Community informed by community extensive community engagement while plans for a larger recapitalization of the properties are developed.	Completed	Low or moderate income households or populations	N/A

6-Revenue Replacement							
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	Status	Targeted Populations	Key Partners
6.1-Provision of Government Services	Expand Homeownership to BIPOC Households in Harrison	\$550,000	\$550,000	This proposal provides additional investment in deeper affordability financing for the Harrison Townhome project which will expand homeownership opportunities to BIPOC homebuyers helping to reduce racial disparities in homeownership. The American Rescue Plan investment will allow for the developer to serve five households out of the 17-unit proposal at a more deeply affordable income level of 41-60 AMI as opposed to the original 61-80 AMI approved by City.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Affordable Homeownership Preservation Grant Program	\$70,382	\$70,382	Regulatory Services proposes to extend and expand the current pilot project between its Homeowner Navigation Program and Habitat for Humanity to provide micro-grants and assistance with repairs to vulnerable homeowners. Regulatory Services would grant the funds to Twin Cities Habitat for Humanity who would distribute the funds to qualified homeowners.	Completed	Low or moderate income households or populations	Twin Cities Habitat for Humanity
6.1-Provision of Government Services	Enhanced Litter Services for Cultural Districts	\$334,115	\$334,115	Work with district businesses with coordinated service contracts. Services may include snowtrash removal seasonal lights and greenery street furniture etc. This program assumes that the offerings are an enhancement beyond what may be currently provided and that these services would not be charged back to business property owners.	Completed	Small businesses operating in Qualified Census Tracts	N/A

6-Revenue Replacement							
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	Status	Targeted Populations	Key Partners
6.1-Provision of Government Services	Small Business Acceleration - Co-operative Creation and Support Fund	\$330,000	\$330,000	This program provides funds to finance working capital and cover start-up costs for Co-operative businesses development.	Completed	Small businesses that experienced a negative economic impact of the pandemic	Shared Capital Cooperative
6.1-Provision of Government Services	Career Skill Building - Green Industry Pathways	\$96,931	\$96,931	This program provides focus on creating new career pathways within emerging green sector technologies and industries.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Career Skill Building - Ambassador Program	\$988,468	\$988,468	This program expands outreach to people looking to connect into the workforce.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Small Business Acceleration - Minneapolis Recovery Fund	\$8,199,894	\$8,199,894	Program provides fee reductions and forgivable loans for businesses forced to close due to economic hardship from the pandemic and who want to reopen their licensed business in Minneapolis.	Completed	Small businesses that experienced a negative economic impact of the pandemic	N/A
6.1-Provision of Government Services	Tenant Eviction Representation	\$692,996	\$692,996	This request would utilize the City's ARPA funding to cover renter legal services provided by Mid-Minnesota Legal Aid including support for renters facing eviction and legal assistance for renters who ask their landlords to make needed repairs to their rental properties in compliance with state laws and local ordinances.	Completed	Disproportionately impacted Low income households and populations	Mid MN Legal Assistance

6-Revenue Replacement							
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	Status	Targeted Populations	Key Partners
6.1-Provision of Government Services	Housing Stabilization Land Trust and Perpetual Affordable Housing Models	\$1,274,309	\$1,274,309	This program is a new initiative of the Minneapolis Homes Financing program which includes pathways to intervene in displacement trends to stabilize existing homeowners and tenants through acquisition and rehabilitation financing. 24 household properties were supported.	Completed	Low or moderate income households or populations	N/A
6.1-Provision of Government Services	Assist Homeowners at Risk of Foreclosure	\$46,370	\$46,370	The City proposes providing deeper investment in rehabilitation or in affordability gap for homeowners at risk of displacement due to unsustainable mortgage payments or significant deferred maintenance needs. Two properties were assisted.	Completed	Low or moderate income households or populations	N/A

6-Revenue Replacement							
Project Expenditure Category	Project Name	Adopted Budget	Expenditures through December 2024	Project Description	Status	Targeted Populations	Key Partners
6.1-Provision of Government Services	ARP Cultural DA Enhanced Technical Assistance	\$135,250	\$135,250	Competitive grants to 7 community-based organizations as a component of the BTAP program to fund technical assistance. Awards made to African Development Center; Lake Street Council; Metropolitan Consortium of Community Developers; Mni Sota Fund; Latino Economic Development Center; Northside Economic Opportunity; West Bank Business Association.	Completed	Small businesses that experienced a negative economic impact of the pandemic	See Description
6.1-Provision of Government Services	Phase II Revenue Replacement Projects	\$18,556,052	\$18,556,052	Phase 2 decision-making has been an ongoing process since the fall of 2021. The public was asked for input through a survey and the interactive American Rescue Plan Act Spending Public Survey. Results were used to inform decision-making. Project proposals were collected from city staff and community organizations. Planning included monitoring of Phase 1 project implementation for feasibility and learning from the experiences of City staff implementing prior proposals. All of these pieces have been used to evaluate and select proposals. Phase 2 appropriations also include reallocating \$7.5 million in funding from three Phase 1 Housing & Homelessness initiatives to new or expanded Housing & Homelessness initiatives in Phase 2. For details refer to <a href="https://stories.opengov.com/minneapolis/published/H_EqxlI3q">https://stories.opengov.com/minneapolis/published/H_EqxlI3q</a>	Completed	General Public	N/A
